# Guidance for the application

You should, as a minimum, fill in the following items in the form: MANUFACTURER / APPLICANT, PRODUCT - Name and type as well as DATE and SIGNATURE. Information under the other items may be given in accompanying attachments.

## **APPLICANT - DISTRIBUTOR/AGENT**

If the applicant is not to be declared as the holder of the approval, the name of the distributor/agent shall be given.

Data on the distributor/agent is only to be filled in, if the applicant (the holder of the approval) and the agent are not the same legal entity. ETA-Danmark A/S may require acceptance from the manufacturer that the applicant is entitled to apply for an MK approval.

## **PRODUCT - Product Name**

Enter in this field the technical designation of the product, e.g. roof covering, wet rooms, floor coverings, wet room floor structures, etc. In addition, the brochure, the technical data specification, the installation guide/instructions for use and the tests already undertaken by an accredited testing institute etc. must be attached for the product.

## **Name and type of product**

Specify in this field, the make and type designation and, if applicable, other designation under which the product will be marketed.

## **Field of application**

Inform in this field on the use of the product in relation to the conditions for MK testing and approval.

Examples:

- Waterproofing membrane for floors in wet rooms
- Waterproofing membrane for walls in wet rooms
- Internal wall systems
- Tread-safe translucent roof panels

## **Comments**

Here you should provide any supplementary information. If the product has previously been MK-approved, you should indicate the approval number. If the product has an ETA, you should indicate the number of the ETA.

## **INSPECTION**

Inform in this field whether the product is covered by an inspection agreement, e.g. in connection with a corresponding approval from another country, and a copy of the agreement should be attached.

## **DOCUMENTATION**

Provide in this field any drawings, descriptions, test reports (Danish or foreign), approvals from other countries or other technical documentation accompanying the application.

## **DATE and SIGNATURE**

The application should be dated and signed by a person with the applicant who has legal responsibility.
